

How do I get started?

In order to borrow streaming videos, you will need two things:

1. An active library card without any fines or overdue books. Please visit the library or its website, www.kleberglibrary.com, to learn more about the library card policy.

2. The OverDrive Media Console App for your device. This application is available for download through the Overdrive website or through the QR code on the back of this brochure.

Once these two things are in place, you are ready to borrow from our collection. When you log into the OverDrive application, it will ask you to select your library. We suggest that you search for our library using the library's zip code of 78363 rather than searching for the library by name. This avoids confusion with other Kleberg libraries.

**A Guide to
Streaming Movies
Through
OverDrive®**

How OverDrive Streaming Video Works

Borrowing

You can borrow up to 2 titles each calendar month. The lending period for streaming videos is 3 days from checkout or 48 hours from the time that you start watching. You will never have an overdue fine with OverDrive. After your viewing time expires, the video will automatically return to the collection.

After you select a title in our collection, you can open a screen with film information including: the rating, a short description of the movie, and the genre. You have an option to watch a sample of the movie, add it to your wish list, or to borrow the movie. After clicking on the "Borrow" button, a dialog box will prompt you to visit your checkouts page where you will begin streaming the movie. There is no downloading required; however, internet access must be available during the streaming process.

What does that symbol mean?

There are three types of media on OverDrive:

What does that symbol mean? (cont.)

These symbols not only identify the type of media but also its availability. If the icon is black, then your chosen item is available for check out. If the icon is grey, you can add the item to your hold or wish list, and you will be notified when it is available.

Renewing

The renew option will appear in your bookshelf. This feature allows you to renew the movie if no-one has a hold on the item.

Returning

Once your loan period has expired, your book will be automatically returned to the OverDrive collection. Titles can be returned early, if you finish the viewing or change your mind on a title. There is a choice to return the book on your Checkouts page.

Holds

You can place up to 6 titles on hold at a time. The "Place a Hold" button will appear instead of the "Borrow" button if a book is already checked out to another patron. You will receive an email notification when a title becomes available. Once the notice is sent, you will have 72 hours to borrow the title. If you do not retrieve it in time, the title will be made available to the next user on the hold list.

So what devices can I use OverDrive on?

The list of accepted devices is changing constantly as OverDrive expands.

Currently, the OverDrive app. is available for iOS, Android, and Windows phones, Kindle, as well as Windows and Mac desktop platforms.

For more information on your device's compatibility with OverDrive, ask your librarian for a list or contact OverDrive support.

What If I don't see the movie that I want?

Our collection of streaming movies currently includes titles from Disney® and MGM® studios. Other movie studios are being added as they become available.
